

Hello Paint Lakers,

We've been experiencing some beautiful weather and it's already starting to look like summer! As everyone gets their properties, docks, rafts, and Muskoka chairs set up and ready for a beautiful summer, we wanted to take note that there has been some debris floating around (take caution) and if you're missing certain items feel free to reach out to the association so we can help track them down.

At present, a large dock approximately 12' x 8' has floated into the Paint Lake creek which we have removed and tied up to the public boat launch dock on Paint Lake Rd. Attached you will see a photo so if it happens to be yours or a neighbour's please let us know so that it can be dealt with and will not impede the boat launch ramp any longer.

Additionally, the water testing is underway, and the association would like to send a big thank you to Ted Handcock for his 8 years of testing! We'd also like to thank everyone who has sent in their Paint Lake association fees!

### **Summerfest "Meet and Greet" 2022**

It sure has been a crazy couple of years with Covid restrictions and lockdowns. It is a great pleasure to announce that we will go forward with our Summerfest plans this year as well as a few other activities including the band Freedom Train, Boat Parade and Car Rally.

This year's Summerfest will be a little different due to ongoing Covid concerns. We will omit the BBQ and any close contact children's activities. However, we will have a few games for our younger cottagers along with drinks and snacks. We will take this opportunity to get to know each other again and welcome the many new cottagers on the lake.

We will provide further info in the coming weeks and if you would like to Volunteer, a post regarding this will also follow.

Should you have any questions or concerns, please get in the touch with the social committee using the following:

**Phone:** 416-219-3808 txt or call

**Email:** [thesummerfest2022@gmail.com](mailto:thesummerfest2022@gmail.com)

Sincerely,

Paint Lake Association
